The War On Camden

AMDEN

Salisbury State College Salisbury, Maryland 21801

Vol. VI, No.3 October 11, 1978

Volleyball Tourney Hosted

The SSC Women's volleyball team will host a tournament on October 27 through October 28 in Maggs P.A.C. and Tawes Gym. Visiting teams include: Bridgeport, Cortland, East Stroudsburg, Galludet, Greensboro, Madison, New Haven, Rutgers, Towson, Trenton, and Virginia Commonwealth. Action starts on Friday at 1 p.m. and concludes on Saturday at 5 p.m.

Childbirth Speech Planned

Jane Malone, in-service Instructor of maternal/child nursing at PGH Medical Center will speak at a meeting of the Medical Careers Club at 7 p.m. October 25 in Room 134 of Devilbiss Hall. She will talk about her profession and "a day in the labor and delivery room." Anyone interested is invited to attend.

Premedical Advisory Meeting

Premedical, predental, and preveterinary students are urged to attend a meeting manner: 3:30 - 4:30 p.m. Tuesday, October 31 in DH 134 to review course recommendations and preparation for professional schools. Errors in course selection are common and can seriously jeopardize readiness for admissions tests taken at the end of the junior year. Students considering a medical career should contact Dr. Standaert (DH 140), get advice early, and quickly get on the track of preprofessional courses. Several advisors will be present for Tuesday's general discussion and question session.

Homecoming Help Needed

The CCPB needs people to help set up Maggs Gym for the Homecoming Dance. October 30. Those people interested in decorating the gym and helping set up tables from 4:30 to 5:30 p.m. on Saturday, October 28, please sign up at the Information Desk. We really need your help, so try to come out for an hour and help get things

Needlework Lecture at City Hall

A free public lecture on American period needlework will be given on Wednesday, November 1 at 12:15 p.m. in the City Hall Museum, downtown Salisbury. The speaker, Florence Berdann, is with the Baltimore Museum of Art. Persons wishing further information may call the City Hall Museum at 546-9007.

Ping Pong Tourney

The CCPB will sponsor a table tennis games tournament in the College Center Games Room on Tuesday, November 7 at 7 p.m. Sign-ups are now being taken at the Information Desk in the College Center. There is no entrance fee and prizes will be awarded to the winners.

Performing Students Wanted

On Thursday, November 30 the Muddyhole Coffeehouse will feature Student Night. If you are interested in performing at this event, please sign up at the Information Desk in the College Center by October 30.

Spring Registration Material

Registration material will be distributed October 30 - November 3 in the following

Commuting Students - registration material for the Spring 1979 semester will he available for pick-up from Monday, October 30, to Friday, November 3, at the following locations and times: 9 a.m. - 4:30 p.m. - Lobby, Holloway hall and from 4:30 p.m. to 10 p.m. at the switchboard, Holloway Hall.

Dorm Students: registration material will be delivered to the dorms on Monday,

Advanced registration will be November 6 - 10.

Graduation Speakers

Suggestions for speakers for the December and May graduations are now being taken. If you have a suggestion, please leave it with Terry Minogue in the SGA

Specials from the Snack Bar •••

"Those damn college students are at it again!" screams Mr. Smith as he slams the porch door. "What's the matter honey?" his wife Harriet asks. "Oh, I had to park halfway down the block because those kids are throwing another beer blast, go look out the window and see for yourself."

By Randy Barnhart

"Oh dear, look at all the people, how do they all manage to fit in there?" she asks. "I can't answer that Harriet, but I do know that someone is urinating on your petunias."

The sound of tires screeching and bottles breaking interupts their conversation as they continue to peer out the

"You know honey, there wouldn't be a problem if somebody kept an eye on the

Dr. Rivers I. Hanson, Acting Chairman

The preceding conversation was a dramatization of a scene that frequents the neighborhoods surrounding Salisbury State College. A minor problem in the past, off-campus disturbances have been magnified by increased enrollment, lack of dormitory space, and inefficient zon-

college have tolerated the situation for many years, but now the problem has peaked as local groups have voiced their complaints to Salisbury's City Council. Some neighborhoods have gone as far as forming action groups to concentrate their efforts. One such group, the Camden Area Association met at SSC in Devilbiss Hall on Sunday, October 15. Acting chairman of the association, Dr. Rivers I. Hanson, is sympathetic towards the situation as he comments, "I don't think the problem is just confined to the Camden-College area. We don't have a vendetta against the college students or administration." A practicing gynecologist in Salisbury, Hanson resides at 1013 Camden Avenue.

The association is in no way aiming their complaints at the students, but at the situation they are placed in. The city's zoning laws permit most of the problems to exist. One of the main topics of discussion of the association was the definition of a family by the zoning code. The code defines a family as one individual or two or more persons related by blood, marriage or adoption. However, the third and final clause allows a family to be "not more than four persons who need not be related by blood, marriage or adoption, living students. kids in that apartment," comments together as a single housekeeping unit in a dwelling unit."

> By definition of a family, landlords are able to by-pass areas of the zoning a handful of people are causing the code, thus enabling them to rent apartments to so-called "Families" of students or other individuals. Many of the plications. apartments are located in the heart of residential areas near the campus. One of the older sections of Salisbury, the homes in the Camden area are situated on narrow streets without much acreage surrounded by professional people. In the between lots. landlord. Some landlords' idea of fixing fair share to the noise and trouble. On a hole in the wall is to put tape over the hole and cover it with paint. One must be careful not to lean against a wall for fear of losing another 25 dollars.

Dr. Kundell has offered some solutions to the problem. "The houses should be licensed so they would be forced to abide by city standards," he said. "A separate area for fraternities or an additional dorm would be supported by the community. Students could live with families who need some extra income, older people especially. This would be a more controlled situation than we have now. There is nothing we can do now. When I was in college, the upperclassmen were forced into the community to look for housing. The less mature freshmen and sophomores were allowed to live in the dorms.

Meanwhile in City Hall, a committee has been appointed to investigate the complaints from local citizens. The committee has a wide range of members, featuring Henry P. Wojtanowski, chief of the municipal bureau of inspections, and Dr. Norman C. Crawford, president

The committee will investigate the possibilities of licensing landlords and tightening the ordinances surrounding parking facilities. In theory, these plans sound like the ideal solution, but in reality tough to enforce. Gary Hill, assistant director to the bureau of inspections, agrees that it's difficult to check up on the apartments. "It's tough to get around the entire area and police it with the help we have. It takes complaints,"states Hill.

Concerning the students' role in combating the treatment received from landlords, Hill had these suggestions: "If students would call the Bureau of Inspection and ask if the city has the house on record as a rooming house, we could crack down on those not approved."

blown, especially the role of the students photo by Randy Barnhart)

Hands-off Policy Backed

By Pat Bailey

SSC's philosophy in regard to off-campus housing is the "hands off policy," according to Robert E. Lovely, director of housing. "We don't want to get between the landlords and the students,"

pus housing facilities. "All we have is a list of people that have facilities and a form the landlords fill out," said Lovely. "The choice of accepting or dejecting the facility is up to the student." There are between four and five hundred spaces listed with the housing office.

A booklet, Ask Before You Sign published in the summer of 1978 gives tips Lovely said that at some schools the to students who are looking for off-caminstitution buys buildings, rents them out pus housing. In case of any difficulties,

or deject it.

Salisbury State College does not inspect, approve or disapprove off-cam-

to the students, and the students pay the these booklets are located in the housing school. Another method colleges employ office. It gives such information as - what dealing with the off-campus situation is to know before you go, such as money, that they have an approved off-campus roommates, utilities, etc., how to evaluate list. They inspect the property and accept the residence, the lease, and where to go

"Today off-campus housing rent ranges from \$18-\$25 a week as compared to SSC's dorm rate of \$17-\$20 a week," said Lovely, "Some people buy condominiums and rent them out for \$30 a week. This isn't as bad as it seems if the landlord is paying for all the utilities. Most places keep their rates down because they want the students to come back, but some try to make a killing all

Problems which may occur include not getting security deposits back not getting what you first paid for, or not getting the room you expected.

"We have taken Mrs. Lena Potter off of our list," he said. "She still has places for rent and if one student needs a roommate the student usually comes in and signs the form instead of her." Most of Potters' houses are located at the lower end of Camden Avenue.

A quote taken from the booklet reads "The lease agreement is protected by the 'freedom of contract'clause of the Constitution, which means you can agree to almost anything, as long as it's legal. By the same token, the landlord therefore - BEWARE!"

Hill feels the situation has been over- The "Callis Palace," site of much controversy surrounding student tenants. (Staff can stipulate almost anything he wishes;

Callis: The Accused Speaks Out For Landlords

The famous "Newton House" has been the mecca for students past and present.

The media has devoted much coverage to citizen opinion as well as student reaction to the off-campus situation. The brunt of the attacks have been directed at the landlords of apartment complexes. The Flyer arranged for an interview with Joseph T. Callis, owner of Callis Rentals in Salisbury. Having been in the rental business for four years, Callis has contacted with SSC students on many occasions. This interview gives the landlord's side of the situation with few locations close by that can be students and the community.

How many buildings do you lease out to students?

Two apartments full of students and two partially with students. Where are they located?

One's across from the college on College Avenue, another on Isabella Street and one down on Camden Court. On the whole, how have students treated

They've treated me alright, but they've treated my property rotten. They're inconsiderate of property and neighbors. Why do you think that inconsideration came about?

Part of it I suppose is students are away from home for the first time. They really don't know how to act and how to be on their own. Then, also, possibly, the fact that the drinking age has been lowered which has great bearing on their behavior. Normally, they wouldn't react this way.

Have you treated students fairly while being their landlord?

I've tried to, I started out trying to do everything for them, giving them

Sign of the times? (Staff photo by Randy Barnhart)

windows, and a lot of extra things. there such an encounter to get a fire But I've found this you can't do.

What possible corrections could be made to the zoning laws to alleviate the pro- tor, which when I bought the building blems surrounding the campus and the it (the fire escape) was in bad state. And since then I've cut back each year.

community, a lot of revenues is arrived from this college being here from stu- which again would have cost about that. dents and the whole operation. So, if So I didn't do anything with that. campus does have a problem as far as being able to house as many as they want to attend here. So if they would may be alleviate the problems that have arisen? bend a little in allowing some of these amount of square footage that they want. I have found that the smaller units that I have, the less problems I have. And this is what the students want. If they allow some structures to to take be changed there would be less problems n that they would house more people. Of course the first thing most of them want is to be as close to the campus as possible. A lot of them don't have cars. with a lot of the restrictions on some of the properties you can't make any changes because you don't have adequate parking and so this automatically rules out any change. There's not that so happens that the campus is located in a residential area and there are very

changed for students. Back to the parking, of the structures that you own, do all the apartments have one space per room in front, but not so they have to park on a lawn?

Isn't that required by law?

Yes, a lot of times when I rent if I don't have the space, I don't rent to people that have cars. It seems that would be a breach of the

law even if they have cars or not. Very likely. The thing is if I didn't provide that space, then that would be that many more spaces needed.

Some students have cited that on some occasions after passing inspection they failed to get their security deposit returned, is that true?

Did you send them a list of damages?

Probably not as formal as it should have been. But, when they move out of a location, they pretty well know what's been done, more than I do. I have had some of them come back and complain I have heard that some of them spread rumurs about me. I had one case last year where they rented a house by one of the coaches. I told them I was against it, renting a whole house to one group or to all students, I have not had very good luck. He said I will assume the responsbility for these people, I'll hand pick them.

Is that Coach McGlinchey?

Yes. So they completely destroyed the house inside and then some of them went to their lawyer and wanted the security deposit back. It just so happened that I took pictures of all the destruction and had planned on suing the whole group for the extra damages. So rather than get involved, I just took the pictures down to their lawyer and he said forget it, you'll never hear from me anymore. So these two punks, which is the only word I can have for them, would spread the word around that I kept their security deposit. If they think what they did is right, you're wrong.

Some members of the Camden College Association made reference to a battle with you about a fire escape at your

extra things, carpeting, drapes on the apartment on Camden Avenue? Was business in the future? escape for the third floor?

It was through the building inspecof repair, I was told that I had to replace I've gone to high-level tenants. I think the first thing is the governing it with a steel structure, which was going body must recognize that this is a college to cost five or six thousand dollars, which nity has given you a fair shake while you I couldn't afford. Rap Session Held

By Julie Coffren

Alcohol on the Salisbury State College campus was the main topic of discussion at the first sharing session of the fall semester. On Saturday, October 21, 1978, four SSC administrators and seven students met at the clubhouse in Ocean Pines to express their concerns and opinions on certain issues. Registration of an organization is

This sharing session is one of many "rap sessions" planned for this year. Students, faculty, and administrators get together at Ocean Pines on a Saturday to discuss whatever is on their minds about anything at SSC. Their goal is honest communication between the

The biggest issue was the alcohol use at SSC. They discussed the possibility of constructing a campus pub to lighten the demand on Thursday night keg parties. The atmosphere at this pub would be similar to the coffeehouses held in the dining hall. Entertainment would be provided, and the suggested hours were 10 p.m. - 1 a.m. on weekdays and 4 p.m. to 1 a.m. on weekends. Beer prices would be about 40¢. With the opening of this pub, alcohol use would be restricted in the dormitories.

Another topic on the agenda was the lack of power designated to the college judicial board. Many people expressed the view that the board was ineffective, as is evident since only a few people have been expelled from school.

This group also discussed the lack of academic emphasis in the Entry Program held each spring for the incoming freshmen. Suggestions made include adding a course syllabus to the packet given to the freshmen and to show them a sample test.

Recommendations for the December graduation speaker are: Fritz Mondale, James Michener, Pamela Harris, Michael Harrington, and Leonard Bernstein.

More sharing sessions of this type are currently in the planning stages. According to an invitation sent to selected students, "We need a chance for both (students and faculty) to express their concerns and opinions... to express the reasons behind the opinions and widen the perspectives on the issues."

Any students interested in attending one of these sharing sessions should contact either Joe Hart (546-9883). Mary Maney (749-3599), or Danny Eusebio (749-6276).

Scavenger Hunt Held By Circle K Club

The Circle K Club of Salisbury State College conducted a scavenger hunt for the international students on Tuesday evening, October 17. Approximately 30 foreign students and Circle K clubbers roamed around the campus and surrounding communities looking for such items as purple socks and cement blocks. Later the group met and prizes were awarded to the group who found the most objects. The students were also required to translate each item on the scavenger list into their native language. Following the hunt the international students and the Circle K Club gathered in the Pizza Hut to fill up on the good old American staple-pizza.

The scavenger hunt is just one of the few projects undertaken by the Circle K Club. The club is also involved in various activities in the community as well as its second year of operation as it was on campus. Circle K is a good way to chartered in the fall of 1977. meet new friends and get involved in more social events. The club is entering Circle K, or want to join the club, every-Room 149.

Inter-Greek Council has historically been negative attitude toward the council is an a relatively unknown organization among attitude which the current IGC hopes to In addition to the Greek Information

Tables which were set up in front of the College Center earlier this semester, the IGC plans to publicize the Greek organizations by holding an IGC carnival in the quadrangle on Homecoming Sunday, October 29, 1978. This carnival, which will be sponsored through entry fees donated by each fraternity and sorority on campus, will include games, relays, and refreshments on sale. A non-profit adventure, the carnival will offer activities similar to those on the television show, "Anything Goes."

The Greek organizations will also be participating in the Jaycee-ettes Walk for Mankind, Sunday, November 5, 1978. Many members from the Greek organizations will either walk in the walk-a-thon or will man the check stations throughout

Finally, a "Greek Day" has been tentatively scheduled for the spring semester. According to Hales, it will be conducted similar to, but on a smaller scale than, a "Greek Week" held at a university. Financial restrictions and the smaller number of Greek organizations at SSC limit this activity to one day.

Unfortunately, despite these positive steps toward recognition and inner unity, the Greek organizations have already received unfavorable publicity this semester. Hales states that she believes the disorderly conduct which prevailed at the Sigma Nu-sponsored movie, Animal House held at the Shoppers World Theatre, Wednesday, September 20, 1978, may

New Honors Program

By Julie Coffren

For the first time in Salisbury State College history the Faculty Conference approved an honors program which will begin on a trial basis beginning next

According to Raymond Whall, honors program coordinator, "We have a group of highly motivated, intellectually able students who are often bored in regular classes, and we feel that we don't give them what they really deserve."

The general objective of this honors program is to "offer to our ablest, most highly motivated students, challenging academic opportunities which will accelerate and enrich their intellectual development." A further specific objective would be to "identify students whose ability and motivation are of such quality that their academic needs might not entirely be met by existing programs.'

Honors classes will be held in three departments next spring, including English, Math, and History. One section of English 102, History 102, Math 110 and Math 113 will be honors courses. Entrance in these classes will be by the consent of the instructor.

The class size will be limited to around 20 students, therefore, these courses will not be the standard lecture type. Instead, students will be encouraged to make presentations, raise questions. hold discussions, and do more writing and research than would be done in a regular 100-level course.

These courses will be offered on an experimental basis, basically to find out if there is enough student interest in a program of this type. If the students and faculty respond positively, more honors-type courses will be offered in the fall of 1979.

"The success of this program will be determined by the interest and the capabilities of our students and the interest and capabilities of the faculty,"

The instructors for these courses will be chosen by the specific department. The professors selected for Spring, 1979 include: Tom Erskine (English 102): Sylvia Bradley (History 102); and Lee May and Glenn Rock (Math 110 and 113).

Similar honors programs are in effect at other colleges. In fact, many have their own "Honors Departments," in addition to the regular ones.

Long-range goals of the program here at SSC are to grant an honors degree, in which a student would take a minimum of 20 honors courses, then write a thesis which would be under the direction of a professor, and finally get an

Ceremony Lacking

Twice a year at Salisbury when the riffs of pomp and circumstance issue forth, participants shed tears not for reasons of finishing that long haul over four years but cry for the lack of a meaningful ceremony.

In the past, graduation has been an anticlimax for those involved. Shabby gowns, inadequate seating, and a lack of planning are features of the ceremony not listed on the program. Those items can be taken care of, but must be attended to well in advance.

Not a new event by any means, the committee on commencement, chaired by Joseph K. Gilbert, should realize that graduation occurs on a regular basis every year. Armed with this knowledge, perhaps the committee could concentrate their efforts and obtain a decent speaker for a change. In the past, the greatest response a speaker received was a yawn and that was out of respect for the man's ability to lullaby the

Many people believe it impossible to locate a well-prepared speaker Greek Frat Not Greek straight or go back to Greece. The bucks stop here. without forking out an exorbitant lecture fee. It's a well known fact that government officials are not permitted to require a fee to speak at Dear Editor: meetings or similar gatherings. Thus, the only thing preventing SSC from latching onto a good speaker is time. If the committee would plan well in advance, we could get a speaker of national prominence. The doors of those in the public limelight are not shut but can be unlocked to those having the confidence to knock on them.

These doors are a lot closer than we think, as the crow flies we are located 90 odd miles from the nation's capital. With an abundance of leaders in one central location, we assume there exists some individual appropriate for commencement. However, it takes time to open the doors of those in high places. They just won't drop everything at once, one has to court them for a period long enough to collect their thoughts.

For those students fortunate enough to graduate this December, they will probably be subject to a crudely constructed exercise. With less than two months remaining until the donning of caps and gowns, their fate might already be decided. However, it might not be too late. If the committee would get on the ball and put themselves in the shoes of the graduate, they might become a little more motivated. Better yet, imagine sitting in the audience waiting to see your son graduate after four years of studying on his part and years of your own efforts planning the aspects If the thought of legitimate free trade

Watching a graduation at SSC must be a disappointing experience for the parents concerned. After paying tuition and housing bills every semester for four years, we couldn't blame parents if they feel a little shortchanged by the efforts put forth by the college.

Keg Controversy Continues

By Til Jones

I am writing with regard to the administration's recent ban on dining hall "keg parties" and the strict limitation over the amount of beer sold at approved "social functions" in the future.

There are several reasons backing the

administration's ban of "keg parties." The first deals with what Dean Robinson the college will not provide the facilities for "uncontrolled consumption of alcohol" by students, adding that the college realizes that their ban on "keg parties" will not end the drinking problem on campus but will also not contribute to it. Robinson reported that vandalism was also a factor in the decision to ban "keg parties." "We have been experiencing an exceeding amount of vandalism associated with keg parties." It is impossible to prove what "individuals" commited the vandalism and thus the blame must be attributed to the large "uncontrolled" crowds attending these parties.

Thirdly, Robinson stated that poor attendance at Friday classes has caused much concern, and he suggested that Thursday "keg parties" were responsible for this high rate of absenteeism. 'We have noticed at least a strong coincidence in the absenteeism at Friday classes after of so few? Thursday beer parties."

According to Robinson, all student keg parties in the future will be handled by the college. It will be their duty to determine how much beer will be available to each student during the event. Robinson went on to say that what the college is trying to eliminate is the all tive in the past. This system, he claims, its individuals to drink more than they can handle. Robinson explained signed to permit conscientious drinking by students, but to control drunkeness.

Thus far the administration's ban of "keg parties" has been effective only in the sense of reducing on campus getmoved them off campus. By doing so promote. the students have enraged local property to "party" on campus and we are scourned campus student parties. only "passed the buck" to the community and the community.

who must now tolerate our off-campus "keg parties." Presently, students are mad at the administration for their ban of "keg parties." The community is up in arms against the student body for our off-campus beer parties and both the community and the student body are unsatisfied with the administration's ability to handle this dilemma.

There is no question that the student called "a student drinking problem at body is getting a "raw deal." We are only SSC." Robinson continued, stating that permitted to hold "dainty little gettogethers" at which beer is sold on an individual basis designed to restrict an individual's intake of alcohol. When we move off campus so that we can drink at our own discretion, we are threatened by irate citizens and police.

The administration's argument concerning vandalism and absenteeism are only somewhat legitimate. They hardly seem cause to levy such strict control student "keg parties." It is fact that ALL organizations using the dining hall are responsible for damages to the borrowed facility. If the damage fee is covered by the sponsors, why the huge fuss over property damage? Could it be that a few jerks tore down a bathroom wall during a college-sponsored event, making the college responsible for the damage fee? If so, is it fair to punish the entire student body for the wrong doing

The Administration's gripe concerning Friday absentees is not rationally formed. SSC has always been a suitcase college where students vacate school grounds on weekends. Isn't it more logical to assume that this Friday absenteeism is due to students leaving school early for a three day weekend? I think so. Thursday night you can drink cover charge system effec- beer parties are at most only slightly responsible for the poor attendance at

It is not my intention to lay all the that the present alcohol policy is de-blame for the present situation on the college administration, for their arguments do warrant some serious attention. But I do feel their judgments and policies are somewhat off base. Likewise, the community has a fairly good beef contogethers. Since these parties are not cerning the recent off-campus beer allowed on campus, their sponsors have parties and the "rowdyism" they

In essence, what is needed is a realistic owners. In effect, we are not permitted revision of school policy regarding on-

by the community and threatened with A policy drafted by both students arrest if we move off campus. In short and administrators would benefit the the college has solved nothing. They have college administration, the student body

The Proper Approach To Reading

By Eugene Pawlikowski

Why is it that students in a liberal arts college are assigned reading after reading, and yet nowhere on campus does a careful listener (or eavesdropper like myself) hear anyone discussing anything that has been read for class? Sure, one hears a lot of discussion concerning movies, television shows and sports events, and granted, these things are all worth remembering and discussing. However, students must surely spend at least the same amount of time reading assignments as they do on these other forms of entertainment. Why then isn't there at least equal time spent talking about these readings?

They must be good readings if college professors assign them, or so it can be assumed by the fact that professors have all read a great deal to get their Phd.'s, and must know what good and interesting reading is. Some of these assignments are probably even "classical" and therefore very pertinent to our self-understanding. I'll even bet that some of the assigned readings on this campus are at least as "relevant" to our existence as the disco music that sweetens our ears and hammers our conversations in that honorable emporium, the Student Center. Again I ask, why doesn't this assigned reading generate any out-of-class conversation in the public places at

which is located in the very question itself. Assignment. Yes, for some reason the word assignment, when applied to a reading, somehow restricts or deadens a certain part of the student brain which allows enjoyment. For to be assigned a reading automatically means the student must remember something about it. And what to remember depends largely on the individual professor who gives the assignment. This remembering is then used to take a test which is then used to determine a grade which is then used for many other useful things...

The entire process begins with the assignment and ends with the grade

Grades are what? Important? Everything? Exactly. But tell me, who ever gave a grade for how well anyone read (Chesapeake or The Thornbirds, two recently popular novels? Who was ever graded on what happenned in Animal House or Heaven Can Wait? And when was the last time anyone was graded on Jack Anderson or Art Buchwald or the contents of this very Flyer? And yet movies are viewed, and popular novels, newspapers and magazines are read and discussed everywhere. So why can't assignments be interesting also and maybe even the subjects of out-of-class conversations? It's obvious that changing the system by eliminating grading will never happen: it's too ingrained in our educational system. It follows then that there must be a change in how students deal with assignments, or rather, the

First, I'd like to suggest that when a student first hears the word "Assignment" in a class, he or she should immediately think of an enjoyable experience: Ice skating, swimming, sunbathing and making love are some examples. This at least helps to elimimate the initial anxiety which occurs at the mention of the word. Secondly, I suggest that before plowing into an assigned reading, the student should make a conscious effort to forget the age-old school rule or "looking for what the teacher wants." Instead, the reader I believe the answer lies in one word should make it a point to pay attention only to what interests the reader. Adopting this attitude before embarking on an assigned reading permits the mind to relax and enjoy what it wants to enjoy. For it has been proven that a relaxed mind is the best recipient for knowledge. It also allows for greater individuality and variety of interpretation. Thirdly, I suggest that the student doesn't try to memorize what he or she is reading. This might not apply to the sciences, but in literature or philosophy, it seems that all anybody's worried about what's going to be on the next test. Tests be damned. What's important is

The success of the ROTC program on dent as well as the faculty interest. Without sufficient enrollment in the military science course, the program probably will not be continued on

The success of the ROTC program on the SSC campus depends upon the student as well as the faculty interest.

However, if there is renewed interest, long range plans for the future include establishing a ROTC program here similar to the one at the University of Delaware. According to Colonel Bailey from the ROTC program at Delaware, "We try to provide students with what they want from the program."

Bailey also said that at the University of Delaware they give the students an opportunity to try out different kinds of leadership styles, as well as counseling leadership behavior. Furthermore, the seniors work with the underclassmen to give them experience in addition to aiding the students coming into the program.

The success of the University of Delaware's ROTC program is evident as in

percent out of the 105 schools on the east coast. Furthermore, for the past two the SSC campus depends upon the stu- years, Delaware has been in the top five

> One successful graduate of the University of Delaware program is senior Mark Dragich, who will complete his studies in December, 1978. Although he was at Delaware for only a year, he feels the quality of students there is superior to most. He also said that the instructors are top notch.

> "I saw people at camp who would not make good officers, but at the University of Delaware, they only keep the ones who will be successful. At the beginning of this year the started with 90 students and ended up with 30. The kids are good," said Dragich.

> "The ROTC program could be successful here," he said. "It leaves options for the students," He feels the junior year is the most military year, because of military camp and required physical tests.

> When asked why he joined the ROTC program, Dragich said, "It was something wanted to do. I am a business major and I like the responsibility the army gives

> Meetings will be held for all those students interested in joining the program on October 26, 1978 from 2 to 3 p.m. in Devilbiss Science Hall, Room 149 and on November 2, 1978, from 8 to 10 p.m. in DSH 149. Major Howard, from the ROTC program at the University of Delaware will be on hand to explain the program.

Set Plans for Women's Center

By Julie Coffren

Plans are underway for the new SSC Women's Center, which will be located in the basement of Holloway Hall. Basically, this center will be a place of information and a referral system to meet the needs of women over 30 who have questions about what is available for them on this campus as well as the wider commu-

The formation of this Center is a result of a combination of efforts of the Office of Student Affairs, Continuing Education, and Counseling Services.

According to a postcard sent to the 400 women over 30 who have returned to school, the Center's purpose would include: "support and encouragement for women to reach out for new opportunities in our society, providing information and referral services for the community, promoting full opportunity for women and contributing to the improved status of

The Center will be staffed completely with volunteers. Likewise, there is no specific budget for this Center.

This Center would not provide medical services per se, but instead would refer on campus include sororities Alpha Sigma the women to the medical facilities here Tau, Delta Sigma Theta and Zeta Tau

Office of Continuing Education held an Sigma, Sigma Alpha Epsilon and Sigma Open House on Monday, October 9, with Nu. IGC faculty advisor Dean Richard representatives from the college as well as Yobst said that Salisbury State is enother older students on hand to answer couraging the admission of more sororquestions and to receive the input from ities. However, it has been decided that those women attending about their no fraternities will be admitted in the ideas on the Center

time," said Kathy Groutt of the Coun- distribution of Greek organizations on seling Center and one of three persons campus. directly involved with the organization Yobst further commented that the here together.'

Audrey Stewart, associated dean of student affairs, also commented that the Center will be happy to help returning males that need any assistance

Honors Continued from page 9 ——

"It could benefit the rest of the school. SSC can't get any bigger in number, so instead we hope to improve the quality of education.'

Whall stressed that any students that are excited by this program should contact him in the English Department or go directly to the professor who will be teaching the courses, and then simply register for the class at pre-registration.

Inter-Greek Continued from page 9 account for the many college-related problems, on an off campus, now attributed to the Greek organizations. This dilemna has been discussed at the bito foster increased awareness and action monthly IGC meetings, and in addition to the individual organizations monitoring their activities, the group has decided to write an editorial to some of the local papers defending the Salisbury State Greek organizations.

At present, the Greek organizations on campus or in the Salisbury community. Alpha; and fraternities Kappa Alpha Psi, The Dean of Student Affairs and the Omega Psi Phi, Phi Beta Sigma, Phi Kappa near future. This measure has been "This idea has been here for a long enacted in an attempt to stabilize the

of the Women's Center. "Hopefully, this possibility of obtaining an office for the Center will gather everyone's strengths IGC in the basement of Holloway Hall is now under consideration.

Dining Out REP: 'The' Place To Be

It would seem that The Royal Exchange Pub is the place to be in Salisbury. This is obvious by the sheer volume of cars in the parking lot. The reason for this is apparent upon entering. The atmosphere is so comfortable and reexit signs over the doors (something I'm told by law they are required to have) one could imagine himself in merry olde England, dining in a tavern. We were politely, and quickly, shown to our table by an attractive and pleasant young hostess and almost immediately waited upon by a waitress whose smile of greeting was obviously genuine.

We ordered soup and sandwiches,

of wine...the house wine is excellent, sharp and dry, yet without an unpleasant bite often to be found in wines served at local restaurants. Upon finishing the meal we ordered dessert, a cheesecake that has been unmatched in flavor in my meager experience. After paying the bill, which was moderate, considerlaxed, that if it weren't for the electric ing the quality of the food, atmosphere and service, we made our way to the bar for after-dinner drinks. I have always felt that a bar is only as pleasant as the bartender. In this instance the bartender, a smiling young man named Greg, made my visit there enjoyable. To give credit where credit is due, the waitresses name was Brandon, and the hostess was Patricia. Because of these people, and many more like them The Royal Exchange Pub chopped sirloin to be specific, as well as deserves its reputation as the place to go.

Friday the 13th

Superstition or Bad Luck?

By Marty Lynn

Friday the 13th. According to superstition, evil and bad luck are lurking around every corner. Well, I don't believe all that nonsense. To prove my disbelief, I will relate everything that happened to me on the 13th so you can judge for yourself whether that day is a jinx or

When my alarm went off at 7 a.m. blaring the song "Macho Man," I bounded out of bed and kicked my dresser. Don't worry, nothing fell over but the items that were made of glass, and the cast will come off of my foot in six weeks. The doctor's bill was \$80 and I had exactly \$79 in my checking account. While I was having my cast put on, I

had a pop quiz. The teacher's policy for missing these guizzes is lowering the final grade one letter for every quiz missed. Since my average in that class is a "D," I can expect a nice, neat "N." Oh well, if I ever go to Spain, I'll just stand there and pretend I'm a deaf-mute.

I made it to the dining hall just before 10 a.m., which is when breakfast is no longer served. I was looking forward to my favorite breakfast-pancakes. Too bad the person ahead of me in line got the last one.

I got my first test back in my English class. I was really excited when I saw the 99 on it until I realized that there were 200 points on the test. No wonder my teacher looked at me strangely when I Continued to page 16

Player Energizes Fans

By Jeff Montgomery

Player electrified Finnigan's Rainbow on Sunday October 15, as the trend to bring top quality entertainment to Ocean City continues. Showcasing their new album, Danger Zone, the band pre- keyboards and showed that the group can ented a high energy concert that had the audience screaming for more.

Opening with the song Come On Out from their first album, the band launched into an hour long concert that featured their two hits to date, "Baby Come Back," and "This Time I'm in it For "Prisoner of Your Love," from their

songs from Danger Zone. With the lead guitar work shared by Peter Beckett and I. C. Crowley, the new songs, such as "Prisoner of Your Love," had a driving, guitar-centered sound that provided a kind of excitement that only a live performance can give. With a solid bass line laid down by Ronn Moss and expert drumming by John Freisen, the group showed that they can give an exciting,

Player also showed they can hold their own on the mellow tunes. "I Just Want to Be With You," from the Danger Zone album, featured the tight vocal harmonies that are one of Player's trademarks. "I've Been Thinking," also from Danger Zone, featured J. C. Crowley on do the soft ones too.

The only disappointment of the evening was that the concert was only an hour long. This may have been due to the fact that the warm-up band, Jesse Bolt, played for an hour and a half, leaving Player to cut their show short. Love," and the current single release, Jesse Bolt, a driving, hard rock band from North Carolina, opened the show at 9:30 and played for a long and loud hour The bulk of the concert featured new and a half. While they played their type of music well, everyone was there to see Player, and when they finally took the stage, one could almost feel a sigh of relief pass through the crowd.

> Player gave a good show, certainly worth the ticket price, and hopefully the nightclubs of Ocean City will continue to bring top quality, nationally known entertainment to the Eastern Shore.

Crowd Responds to Rice

By Marty Lynn

The third coffeehouse of the semester, held on Thursday, October 12, featured Randy Rice. Quite a few people showed up to hear Rice sing, though some of style. the tables were empty. Most of the crowd was attentive; only a few people were talking and laughing during the performance. When Rice requested the songs, the crowd was enthusiastic and compared to entertaining.

Rice obviously felt at ease with his audience, and it shows that he really likes what he is doing. Sometimes when he introduced his songs, Rice would tell the background of how the song was written. Since he wrote most of his songs, this added a personal touch, bringing the audience closer to him.

The only instrument Rice used was a guitar, although it would have been a nice change if he had played one or two will be Cantwell and Quillen on Novother instruments in addition to the ember 9. They are a local group who have guitar, which would have added variety appeared at Fager's Island and Chez Jean to Rice's performance.

All of his songs were vocal, and as mentioned before, he wrote the lyrics. be a student coffeehouse. All interested Two songs stood out in the show. One students must sign up at the Information of them was "I Hate Cats", a cynical Desk by October 30.

song about all the terrible things that cats do. The other was "You Fill Up My Stomach", sung to the tune of John Denver's "Annie's Song." All of the other songs Rice performed followed this

Rice is 26 years old and was born in Chicago. He has been performing music professionally for three years and really enjoys it. He tried working audience to sing refrains to some of his other jobs, but found them unfulfilling

The next coffeehouse will be held on October 26 and will feature Mike Williams. Most of you probably remember him as the warm-up for England Dan and John Ford Coley when they performed here last semester. Williams sings funny songs about average people and tells amusing stories in between his

Wildlife Exhibit Birds A Great Success

The eleventh annual Wildlife Carving and Art Exhibit was held October 13, 14, and 15 at the Ocean City Convention Hall. Over 3,500 tickets were sold at the event. 92 carvers and 32 wildlife artists attended. There were also 70 booths selling art pieces, carvings, and clothing. The sales were going so well that the Ward Foundation's gift shop sent back to the museum for more stock.

Carver works hard on a bird for the Wildfowl Exhibition.

covered with paintings fell over and quences might result from that?

won last year's carving competition. The man who donated the prize money for the carving competition last year owned this exhibit, which was on loan to the Ward Foundation Museum for three years.

One point of interest was the booth of the British firm of Royal Doulton, makers of fine china. They introduced a new line of Ward Brothers miniature ceramio ducks.

Bad Luck Continued from page 13 yelled out, "Oh boy, wait until my Mommy hears about this!!!"

After English, while I was hobbling to lunch, my "Trim with Win Super Belt" (an elastic thing I wear around my waist to remind me not to overeat) snapped, flew eight feet, and hit a little old lady in the face. It wouldn't have been so bad if the lady hadn't been walking her cockapoo (a cross between a cocker spaniel and a poodle). I think I read somewhere that these dogs love to bite people's ankles, and this critter was no exception. Those stitches will come out in three weeks. Needless to say, I missed lunch while recovering from this fiasco.

By this time, with two impaired ankles, two "N's," and a growling tummy, I was feeling elated. I thought,

"Who says Friday the 13th is bad luck? So far, I'm having an action packed day.'

When dinner time came, I pushed unusual design on the wall. Since

SSC's tight marking of Maryland

Hall after the movie, a black cat crossed my path. "Oh-Oh," I thought, "I hope this doesn't mean that I'll have bad luck tonight." However, as a result of that black cat, nothing had happened. So,

ahead of five people to ensure a plate of spaghetti. My insurance policy ran out, however, when I slipped on a banana peel and dropped my tray on the floor. As everyone in the whole cafeteria clapped and cheered, my face turned as red as the spaghetti sauce that painted I got the last of the spaghetti, I had the honor of eating the other entree-liver

After dinner, I was looking forward to seeing "Bobby Deerfield" with my boyfriend until he told me he had a cold and couldn't go. So, I went alone, feeling sorry for poor Hubert and trying to remember Mom's recipe for chicken soup. My pity vanished, however, when I saw him in the back row with another girl. Hubert didn't look very sick to me! And if he WAS sick, she certainly would have caught a cold too, if you get my drift. I tried to drown my sorrow in popcorn, but I inhaled a kernal right in the middle of a love scene. I needed a drink of water, but since I was sitting right next to the wall, I had to climb over six people. To make matters worse while I was climbing out, I knocked over somebody's popcorn and had to buy another one in addition to getting my drink of water. When the lights came on after the movie, I got dirty looks form the people in my row. They didn't appreciate missing the most intense part of the movie.

While limping back to Chesapeake I don't believe in the bad luck that Friday the 13th is supposd to bring with it. I declare that day a farce.

Salisbury Ties Maryland, Retains Unbeaten Status

By Sue Elliott

There was much apprehension before the game and just as much during the game when the SSC women's field hockey team met the University of Maryland on Tuesday, October 17th. The evenly matched contest ended in a 1-1 tie, leaving the She Gulls still undefeated.

Both goals were scored early in the first half with Maryland taking the lead within six minutes. This was only the third time in nine games SSC has trailed. Susan Ralph, with her 10th goal of the season, pulled SSC from behind 10 minutes into the game. She was assisted by Jane Hayman.

The two teams battled equally during the first half. "I felt that SSC dominated the game in the second half, but could not put the ball into the cage," commented Coach Tawes. Neither team could gain the advantage as the statistics prove. SSC had a total of 13 shots while Maryland had 14.

SSC's goalkeeper Kathy Mahan made eight saves and had help from Joanna Myers as she stopped one shot. Ann Gladding, starting in her first game as sweeper, also helped with her deflection of two shots. "Ann played excellent deep defense," stated Tawes.

Sue Dennis hustles upfield with a UMBC defender hot on her heels. She scored a goal in the Gulls 9-0 rout of UMBC. They host Towson State today at 3:30. (Staff photo by Ken Hubert)

high interception total of 105. Joanna quently stopped their attack." Myers picked off 20 of them herself.

Coach Tawes commented, "Karen off Maryland when they would start a fast break. Suzanna Mallow had one of

found the She Gulls down 2-0. Eight minutes into the second half. Maryland scored again, but SSC rallied three minutes later as Karen Mullican scored what proved to be their lone goal. Karen was assisted by freshman Mary Sadler.

Keeping their undefeated record going, the SSC field hockey team defeated Glassboro State College 2-1, on Saturday, October 21st.

Glassboro started the scoring three minutes into the first half. Although the She Gulls took 21 shots on goal, they were unable to score and trailed at half

Ten minutes into the second half, Terry Brittingham was assisted by Jane Hayman to tie the game. Two minutes later Terry scored again, this time with an assist from Sue Dennis. "We got off to a slow start, but in the second half we played much more aggressive ball," commented Coach Tawes. The She Gulls outshot their opponents 42-7.

The team's record now stands at 9-0-1 and will be put to the test today when they play Towson State University at SSC. Starting time is 3:30.

The JV field hockey team was defeated 1-0 by Glassboro's B squad. Half time found the two teams locked in a scoreless tie. Nine minutes into the second half, Glassboro scored the lone goal of the game. The "B" team's record

SSC Soccer Enjoying Best Year Under Connors

By Paul Decker

Keith Connors has already been assured of his best season in his three years as the SSC soccer coach. Salisbury has a record of 4-6-2 with four games remaining. The previous two years Connors' troops fashioned records of 1-13-1 in 1976, and 3-12 in 1977.

The Gulls achieved the biggest win in the Connors' regime at home on October 14, by knocking off the sixth ranked NAIA team in 1977, Rutgers-Camden, 2-0. In 1976, Salisbury lost 2-1 to Loyola, the NCAA Division II national champion that year.

Sophomore forward Mark Smith opened the scoring against the Pioneers 20 minutes into the first half, after a long ball off the foot of Joe Lazzati. It was the first goal of Smith's career at Salisbury. He sat out his freshman year.

"Mark has shown a 300% improvement since practice started," said Keith Connors is having his best season the post into the goal. Connors. "He is very coachable and is as the SSC soccer coach. (Staff photo good offensively with his size." (6'2" by Randy Barnhart)

Smith's goal also broke the old team record of 12 goals in a season, set during Connors' first two years here. Smith assisted Lazzati in the second half to round out the scoring.

On October 11, Millersville State

blanked Salisbury 3-0 in Pennsylvania. second half was going to win," said was his second goal of the season.

Connors. "They found the net and we just couldn't." SSC was outshot 20-15 with goalie Tim Ramia making nine saves.

Coach Connors had some comments prior to the St. Mary's game. "St. Mary's is animalistic and vulgar. We play soccer under control, the proper and ethical way. That way it is fun for everyone. I have a pleasurable bunch of guys to coach. We would like to finish this season with a .500 record. We would have to win four of our last five, but I think it is in the realm of our capability.

Salisbury kept their .500 hopes alive with a 1-0 win over St. Mary's last Saturday Dean Wampler scored the game winner in the 65th minute with an assist from Behzad Rassolee. The Saints were eliminated from the 1977 NAIA regional tournament by Rutgers-Camden.

Rassolee moved the ball past his op ponent all the way to the baseline and passed to Wampler in front of the net. Wampler scored as his shot ricocheted off

Women's sports on this campus, as in other parts of the country, have not received the respect or recognition they deserve. Obviously men are bigger and stronger than women, but that should not take anything away from their efforts. Women's sports should not be compared to men's sports simply because there is no way to compare them. The women are a separate entity in themselves and should be considered that way.

The women put in as much practice time as the men. They play an exciting brand of ball because they are competing against women of similar caliber. Any sporting event tends to be boring if one team completely dominates the other.

Competition is what sports is all about. Women have the same competitive spirit men have, thus proving they belong in the sports world. One cannot call himself a sports fan without having seen a women's team in action.

A prime example of apathy towards women's sports exists on this campus. The field hockey team boasts the best record of any athletic team at SSC. They are 9-0-1 this year to go with a 26-4 record the previous two years.

The 9-0-1 record has been achieved against what Coach Sharon Tawes calls, "the toughest schedule we've faced since I've been here." She added, "Madison and Glassboro are extremely strong, well coached teams." The Gulls managed a tie against the powerful University of Maryland sqaud.

"Duke and North Carolina also wanted to play us this year but our schedule was already full," said Tawes.

The success of the Gulls is surprising because there are only two seniors on the squad, Linda Ralph and Joanna Myers. The two veterans have played together at side-by-side link positions for the last three years and Tawes considers them the "backbone of the squad."

Ralph, the left link, made the field hockey nationals her first three years at aspiratons of coaching field hockey in SSC and hopes to make it four in a row this year. She was the team MVP two years ago and has been a captain her junior and senior years.

and has been playing field hockey since first. "I must be able to play and do my eighth grade. She also participated in work at the same time," Ralph said. basketball and softball in high school.

"I decided to attend Salisbury because I'm basically a hometown girl," she said. "I like the small school atmosphere as Ralph said. compared to a larger school."

Ralph commutes from Delmar so she is not as involved in campus activities as the campus students. But this doesn't seem to bother her much. "I don't feel

concentrating in ths area of special education. After graduation, she hopes to land a teaching job in this area working with mentally retarded children. She also has

Devotion is the one quality a field hockey player must possess. The girls must run on their own and practice two Ralph is a Delmar, Delaware native hours a day. However, studies still come

> Coach Tawes has had a great influence on Linda's life here. "We are very close and I consider her a fantastic person,"

Linda also acts as a liaison between Tawes and the rest of the players. She finds out the reaction to certain drills and sprints and informs Tawes. She is

Linda has the pleasure of playing on the same team with her sister, Susan. "I like playing with my sister and I have a tendency to look after her. I act

like a big sister. It seems I'm more con-

cerned about her than me," Linda said. Ralph has a few goals for this her last season as a field hockey player. She wants to make the nationals and beat the University of Delaware which Salisbury has never done. "Last year they beat us 5-0, but that wasn't indicative of how well we played." she said.

Concerning her interests off the field Ralph said, "It seems like all I do is play hockey, study, and go to class. There is no time for anything else."

Joanna Myers is from Union Bridge, Maryland, and has been playing field hockey for the last 11 years. She started in her sixth grade gym class and con-

eft out, because people are willing to also available if any of the girls have any tinued through high school to Salisbury. She plays the right link position opposite Linda Ralph

> Myers made her decision to come to SSC because it was the "cheapest of the state schools." She is majoring in geography but doesn't know what she wants to do after graduation. "My parents are dairy farmers, so that's a possibility, she said. Joanna might use her degree in the recreation planning field.

> "I'm excited about getting out, but a little scared at the same time. I've been a student for so long that a different role in life will be strange.

> Myers has had a happy experience here at Salisbury. Her goals as a freshman was to make the nationals which she did in her sophomore and junior years. "It was great that the phys-ed department paid our way to the nationals. A lot of schools wouldn't do that. I have been disappointed by the lack of coverage our team has received despite the remarkable record we have established," Myers said.

> Myers also has a very high opinion of Coach Tawes. "She always has an answer on the position you're playing," she said. "She explains the rules and regulations and will find out if she doesn't know a particular rule.

> While Tawes has been instrumental in the development of field hockey at SSC, they have been lucky to get talented girls despite the fact no scholarships are offered. "We lost a lot of people last year, but the new people are excellent," Joanna said.

However, Myers believes dedication separates the good players from the average ones. "Each person out there has the talent, but they must have the desire and motivation to give 100%." Her desire sets an example for the younger players on the squad. As a senior and a captain, Myers is "willing to help with questions of where to play and which strategies to implement. She is also receptable to any personal problems the younger girls may have.

Joanna's goals for her senior year are to "play well, make the nationals, and beat Delaware.

Off the field, she enjoys the outdoors and dealing with people. Sewing and crafts also fill some of her spare hours.

The future of field hockey at SSC is bright indeed. The Gulls play a tougher schedule every year with continued

This should attract even more quality players. With only two girls graduating this year, the nucleus for a powerful team will be there for years to come. The biggest game of this year will be played against the University of Delaware on October 31 at 2:30 in Delaware.

Cross Country

Salisbury Led By Guy and Udovich

On Saturday, October 14th, Salisbury College on Saturday October 21. faculty members and former SSC cross State's cross country team traveled to Baltimore County to take on UMBC and Loyola College in a double dual meet. The race was held on a hilly course that bordered the perimeter of UMBC's campus. Against UMBC, the Gulls were defeated 19-42, but gained a split by nipping Loyola College 25-31.

Matt Wilson was the individual winner by running the five mile course for Loyola in 26:11. His time was 54 seconds ahead of the second finisher, Cliff Feldheim from UMBC.

Bernie Guy and Jay Udovich were the top finishers for SSC as they finished 5th and 6th out of the 29 harriers who completed the race. The Gull's next two finishers keyed the win over Loyola. Bob Cannon and Billy Dubois each passed a runner from Loyola during the last half mile to assure the win. They placed 11th and 15th overall. John Hamilton was SSC's last runner to score as he beat teammate Chuck Perdue by one second. Additional SSC runners to finish ahead of Loyola were Ishmael Ennis, Bob Thomas, and Seth Mitchell.

Salisbury State improved their record

Greg Warren from Gallaudet. His winning time of 33:24 over the 10,000 meter course, was 15 seconds faster than the previous record set by Jay Hurley from Stockton State College.

The sea Gulls' first finishers were Bernie Guy and Jay Udovich in a tie for second place. Salisbury's next runner to cross the finish line was John Hamilton, one place behind Guy and Udovich. He set a personal record by outlasting Galluadet's second man by one second. Chuck Perdue was the next Gull to complete the race as he ended in sixth place. Following Perdue was the rest of the cross country squad. It included Ishmael Ennis in eighth place, Bob Thomas and Billy Dubois in ninth and tenth.

Women Rise In Tourney

By Tama Baldwin

SSC's women's tennis team lifted its season record to 4-5 with a win over UMBC on Wednesday, October 18. The She Gulls are winding down a tough season with increasingly improved tennis.

On October 11, the Gulls traveled to Millersville State College in Pennsylvania to suffer a tough 5-2 loss. Minus an injured number one Sue Foelber, the Gulls played until dark and emerged with only two singles wins.

In the number one spot, Kathy Graybeal defeated Jeanne Holt 6-4, 6-3. Number two Barbara Thurston lost to Vicky Eckert 6-7, 6-4, 6-3. Number three Caryn Shave was defeated by Jean Helm 7-6, 6-2. In the number four position, Tama Baldwin lost to Cheryl Feusnacht 4-6, 6-4, 6-2. And number five Jean Lawton pulled the only other win for SSC with a win over Claudia Blackburn 6-4, 6-2.

In doubles, Kathy Smero and Mary Jo Doyle lost to Sue Gottlieb and Geni Cerebelli 6-4, 6-1. The number two team of Karen Alford and Kathy Tragesar lost to Angie Stiklactics and Pam Bopp

After returning from Pennsylvania, Morrison felt "that all of the women's the Gulls competed in the Tennis Life Tournament, finishing eighth out of handled by the administration." The

Coach Dean Burroughs felt the team's play in the tournament was very encouraging. He feels the team shows a lot of "promise" and expects success for the remainder of the season.

In A Flight singles, number one Sue Foelber won in the first round and lost in the second round to Beth Seubert of the University of Richmond. Foelber won her first consolation match and lost her second to Linda Becker of George

Number two Kathy Graybeal lost the second round in the main draw to Ann Filipowicz of Mary Baldwin 6-0, 6-2. In consolation, Graybeal won two rounds and lost to Lawless of Old Dominion

In B Flight singles, Barbara Thurston lost the first round to the number four seed from South Carolina University. In consolation, she lost the second round to Mary Beth Clarkson 6-3, 6-3.

Number four Caryn Shave won her first round by default and won her second round by beating Carin Trainiter 6-2, 1-6, 6-3. She lost the third round to Amy Moll of William and Mary 6-1,

The number one doubles team of Jean Lawton and Tama Baldwin lost to the number two seed from South Carolina 6-0, 6-0. In the consolation bracket, they beat Cole and Conrad of Sweet Brair and then lost in the semis to Fisher and McAllister of the University of Richmond, 7-5, 6-2.

The number two doubles team of Kathy Smero and Mary Jo Dovle won their first round match and lost the second to Madison 6-1, 6-0. They lost in their first round consolation match against George Washington University.

On Wednesday, October 18, assistant coach Mark Sewell guided the Gulls to a 6-3 win over UMBC.

Singles winners were Kathy Graybeal, Caryn Shave, Tama Baldwin, and Jean

In doubles, the number two team of Jean Lawton and Tama Baldwin and the number three team of Caryn Shave and Mary Jo Doyle both won their matches to finish a day of successful tennis.

SSC Women Grow In Prominence

By Tama Baldwin

For the last five years the women's sports at SSC have enjoyed progress in many aspects, such as budget increases, scheduling, match results, and publicity.

Salisbury State currently boasts eight women's sports: basketball, volleyball, field hockey, lacrosse, tennis, softball, track, and swimming

Since 1973, the schedule of these sports has more than doubled for five of the eight sports. The swim team will have its first official season this year.

The level of competition has also increased over this five year span. Many of the women's teams compete against such opponents as: the University of Delaware, the University of Maryland, West Virginia University, Princeton, and the University of Pennsylvania.

Over the last two years, tennis, field hockey, softball and lacrosse have shown

the greatest net improvement. Field by the school. hockey has had an impressive two seasons with a 26-4 record and is presently in financial needs have always been readily the middle of a third successful season. financial increased over the last five years Also, since 1976, softball has compiled a 23-4 record and tennis 22-2.

Mariuna Morrison of the physical education department said the overall participation in each sport has not greatly ncreased, but the quality of players has. Since the advent of Title IX in 1974, high

Inconsistency Marks Seagull Football Effort

By Jerry McGuire

The SSC football team has been a study in contrast the last two weeks. After a 13-7 win over Trenton, in which the defense played an outstanding game and the offense waited until the fourth quarter to come alive, the Gulls lost a 30-28 heartbreaker to Lock Haven (Pa.) State. The offense played well, but the defense could not figure out how to stop the Pennsylvanians.

Trenton State came to Salisbury with very impressive statistics (number one in the nation in scoring offense, the number five rusher, and the number five rushing defense), but the Gulls gave the Lions a taste of what SSC football is all about this year as they shut down the Trentonians. The first half ended with a scoreless

the first time since the Del State scrimmage when he broke his collarbone, fired a touchdown pass to Mark Staton. The Seagulls now were rolling, and on the next possession, Dave Kirchoff steamrolled in from 18 yards. With Kenny Olson's close miss on the conversion attempt, SSC took a 13-7 lead, which is how the game ended.

The Gulls then traveled to Lock Haven State to take on the Bald Eagles. SSC, who saw a good brand of football in the Georgetown game, got another lesson in the geography of football from the Bald Eagles, as they edged the Seagulls 30-28. Lock Haven was winless, but they play in the tough Pennsylvania Conference, in which they are the only Division III school among Division II schools.

Add this to the fact that it was LHS's Homecoming (in front of a sellout crowd)

and one could tell that the Eagles were mentally ready to play football.

Lock Haven's tailback, Joe Speese, must have been electrified, as he gained 272 yards and scored a touchdown. Dave Kirchoff was Salisbury's workhorse, as he scored from one, three, and one yard out and tallied a two point conversion to account for 20 of SSC's 28 points. Tony Bell hooked up with Bert Hill for the other Salisbury score. The see-saw battle was decided by the foot of the Eagles' Don Young, who set a Lock Haven record with three fields goals.

All in all, it was a frustrating afternoon for Salisbury as the offense's best effort of '78 was negated because the defense did not perform up to the standards they had set for themselves in previous games.

The Seagulls will get their chance to bounce back from the tough loss at Lock Haven this week when they take on Kean College (N.J.) in the 1978 Homecoming contest. A lot of pride is contained in this ballgame, and SSC should be ready for Kean. In the back of everyone's mind is the big game with Towson in two weeks at TSU, which should prove to be a classic, with the rivalry between the two schools adding more heat to the fire. Salisbury should be ready to play both ballgames, as the desire to win the Homecoming game and beat the biggest rival are the keys to a successful season.

Kenny Olson boots an extra point in the Gulls 13-7 win over Trenton State, Salisbury hosts Kean this Saturday in the Homecoming game. (Staff photo by Larry Thomas)

tie as the defense once again turned in an outstanding effort, but the offense could not score due to mistakes in key situations. The second half saw Trenton take the lead on a 30-yard gallop by Nat Woodard, but like the week before, the "cardiac Gulls" turned it on in the last

Don't Think of All the People out <u>There</u> Who Need Help... Think of All the People Here.

If one of your co-workers needed help, you'd probably be the first to lend him a hand. Last year, you did ... through the United Way.

Because by giving your Fair Share through payroll deduction, you provided disaster assistance in times of emergency ... life-saving blood in times of sickness ... family counseling in times of trouble.

You also supported recreational activities at the Y and youth programs in Scouts all services supported by your annual contribution.

So this year when you're asked to make your contribution, don't just think of all those people out *there* who need your help... think of all the people here.

The United Way.
